10Gigabit Small Form-factor Pluggable

AT-XPSR

850nm, 300m, multi-mode fiber

Industry Standard

The AT-XP series offers the latest industry standard 10Gigabit Ethernet connectivity in a flexible, small form-factor. These hot swappable optical interfaces simply plug into an XFP slot in any compatible Allied Telesis product for simple migration to 10Gbps data rates.

Options

The AT-XP series offers both short-haul and long-haul solutions. The hot swappable feature of the AT-XP series allows for network changes without necessarily having to remove or reconfigure costly 10GbE network equipment. Simply change the XFP to meet the new transport demands.

Product Compatibility

The AT-XP series of XFPs are compatible with all the Allied Telesis range of products that support XFP uplink connections.
